

ENGINEERING ACCELERATED MASTER'S PROGRAMS

ONLINE OR ON-CAMPUS – WE ARE ENGINEERED FOR WHAT'S NEXT.

Cullen College of Engineering undergraduates – you can gain cutting-edge expertise and skills that will help you become an engineering leader in industry, government, consulting and the private sector.

- Complete up to 4 graduate courses (12 credit hours) in your undergraduate degree that can be used toward both your bachelor's and master's degrees.
- Begin your Master's program with 12 credit hours already completed - leaving only 6 courses (18 credit hours) remaining. The Master's degree can then be completed on a full-time basis in 2 semesters.

FAST TRACK ADMISSIONS

- No GRE
- No letters of recommendation
- No application fee
- Admission decision within 10 business days
- GPA requirement: 3.0 (minimum qualification)
- Holistic decision will be made based on GPA and performance in critical courses
- Qualified students will be eligible for in-state tuition

 **20% HIGHER SALARY**
than a bachelor's degree alone

\$94,000 – average starting salary for engineers with a master's degree. (Source: Payscale)

GRADUATE PROGRAMS

- Aerospace Engineering
- Biomedical Engineering
- Biotechnology
- Chemical Engineering
- Civil Engineering
- Computational Health Informatics
- Computer & Systems Engineering
- Construction Management
- Cybersecurity
- Electrical Engineering
- Engineering Data Science
- Environmental Engineering
- Foresight
- Geosensing Systems Engineering
- Global Retailing
- Human Resource Development
- Industrial Engineering
- Materials Science & Engineering
- Mechanical Engineering
- Mechanical Engineering Technology
- Network Communications
- Petroleum Engineering
- Space Architecture – SICSA
- SUBSEA Engineering
- Supply Chain and Logistics Technology
- Technology Project Management
